

Change DesignLine Door Contact (TX-1010-01-1) Battery

Read before changing batteries!

Before changing batteries, please call the monitoring station and ask them to put your system on test. For this, you will need your account information. Please note that putting your batteries in backwards may damage the device. Remember to note the battery terminals.

You will need a small flathead screwdriver and 2 x CR2032 Batteries

1. Find the notch at the top of the device.
2. Using a screwdriver, pry off the cover of the device.
3. Gently remove the batteries.
4. Note the battery terminals (+, -). Putting Batteries in Backwards can damage the Device.
5. Place new batteries in the device (2 x CR2032).
6. Replace the cover on the device. Press in until you hear a click.
