

# Change Glass Break (60-873-95) Battery

## Read before changing batteries!

Before changing batteries, please call the monitoring station and ask them to put your system on test. For this, you will need your account information. Please note that putting your batteries in backwards may damage the device. Remember to note the battery terminals.

You will need 2 x CR123A Batteries

1. Pop off the cover, pulling from the side with the light and microphone.
2. Remove the cover and locate the batteries.
3. Gently remove the batteries.
4. Note the battery terminals (+, -). The two battery terminals have the positive sides facing each other. Putting in a battery reversed can damage the device.
5. Place new batteries in the device (2 x CR123A).
6. You will see a light blink to signal that the device is operational.
7. Replace the cover on the device.
8. Press in until you hear a click.
